INFORMATION STATEMENT

This Information Statement is being furnished to the stockholders of Victory Energy Corporation, a Nevada corporation, to advise them of the corporate actions that have been authorized by written consent of the Company's stockholders, who collectively own 60% of the Company's outstanding capital stock as of the record date of October 25, 2011 (the "Record Date"). These actions are being taken without notice, meetings or votes in accordance with the General Corporation Law of the Nevada Revised Statutes ("NRS"), Sections 78.315 and 78.320. This Information Statement is being mailed to the stockholders of the Company, as of the Record Date, on November 9, 2011.

On September 26, 2011, the Board of Directors approved, and recommended to the stockholders for approval, that the Articles of Incorporations be amended and restated (the "Certificate of Amendment") that will do the following: (1) streamline the Articles to provide for the roles of Officers, Directors and Bylaws; (2) effect a 50-to-1 reverse stock split to improve access to investment capital; (3) increase the Company's resulting authorized stock of 10 million shares to 50 million shares, consisting of 47,500,000 shares of common stock at \$0.001 par value and 2,500,000 shares of preferred stock at \$0.001 par value; and (4) elect to not be governed by Nevada Revised Statutes 78.411 to 78.444. The full text of the Certificate of Amendment is attached to this Information Statement as Appendix A. The effect of the stock split upon existing shareholders of the common stock will be that the total number of shares of common stock held by each shareholder will be automatically converted into a number of whole shares of common stock equal to the number of shares of common stock owned immediately prior to the stock split divided by 50, with an adjustment for any fractional shares whereby any such fractional shares resulting from the reverse stock split will be rounded up to the nearest whole share.

With respect to the planned stock split, the board has determined that it would be in the Company's best interest to conduct a reverse split of its common stock on a 50:1 basis. Several potential sources of new capital have suggested that the Company carry out a reverse split in an effort to stabilize the trading market volatility that can occur when share price is in the pennies. The growth of the company requires ongoing acquisitions of oil and gas assets and therefore access to investment capital. With this in mind, the board of directors believes that the best course of action is to effectuate a reverse split with the intent of attracting potential new capital sources, reduce the number of outstanding shares of common stock to a level more consistent with other public oil and gas companies, and provide the management of the Company with additional flexibility to facilitate future oil and gas acquisitions thereby providing an opportunity to grow the Company. While this is the intent, there can be no assurances that the reverse stock split will have these desired benefits.

On October 5, 2011, stockholders holding 228,401,027 shares, or approximately 60%, of our issued and outstanding common stock consented in writing to the Certificate of Amendment. This consent was sufficient to approve the Certificate of Amendment under Nevada law.

No Vote Required

We are not soliciting consents to approve the Certificate of Amendment. Nevada law permits the Company to take any action which may be taken at an annual or special meeting of its stockholders by written consent, if the holders of a majority of the shares of its Common Stock sign and deliver a written consent to the action to the Company.

No Dissenter's Rights

Stockholders have no appraisal or dissenter's rights with respect to any of the actions in this information statement.

Interests of Certain Parties in the Matters to be Acted Upon

None of the directors or executive officers of the Company has any substantial interest resulting from the Certificate of Amendment that is not shared by all other stockholders pro rata, and in accordance with their respective interests.

Cost of this Information Statement

The entire cost of furnishing this Information Statement will be borne by the Company. We will request brokerage houses, nominees, custodians, fiduciaries and other like parties to forward this Information Statement to the beneficial owners of our Common Stock held as of the Record Date by them.

Amended and Restated Articles of Incorporation

The Amended and Restated Articles of Incorporation make four (4) major changes that do the following: (1) streamline the Articles to provide for the roles of Officers, Directors and Bylaws; (2) effect a 50-to-1 reverse stock split; (3) increase the Company's resulting authorized stock of 10 million shares to 50 million shares, consisting of 47,500,000 shares of common stock at \$0.001 par value and 2,500,000 shares of preferred stock at \$0.001 par value; and (4) elect to not be governed by Nevada Revised Statutes 78.411 to 78.444.

The full text of the Amended and Restated Articles of Incorporation are attached to this Information Statement as Appendix A.

Potential Impact of the Amended and Restated Articles

Change in Market Capitalization . Theoretically, the overall value of the Company will not change as a result of the reverse stock split so that reducing the number of shares outstanding by a factor of 50 would increase the per share price by a value of 50. However, there is no mathematical certainty as to the increase in the price per share that might be expected as result of the reverse stock split, and there can be no assurance that the per share price will increase proportionately to the reverse stock split or even increase at all. If the per share price increases by a factor less than the 50-to-1 reverse stock split, then the overall market capitalization of the Company will be reduced. If this were to occur, then the overall value of each shareholder's stock would decrease. Notwithstanding this, the Company believes that the benefits of the reverse stock split discussed above outweigh the risk of a change in market capitalization, such that the action will be in the best interest of the Company.

Potential Volatility. The reverse stock split will reduce our outstanding Common Stock to approximately 8 million shares of Common Stock. This change in number of shares could result in decreased liquidity in the trading market and potential mismatches between supply and demand in the market for the Common Stock at any given time, which could result in changes in the trading price unrelated to the activities or prospects of the Company.

Potential Stock Dilution. The increase in the Company's resulting authorized stock of 10 million shares to 50 million shares gives the Company the ability to issue more shares of stock. If this were to occur, existing ownership in the Company would be diluted.

Procedure for Exchange of Stock Certificates

The Company anticipates that the reverse stock split will become effective on December 7, 2011 which is approximately twenty (20) calendar days after this Information Statement is first mailed to our stockholders, or as soon thereafter as is practicable, which we will refer to as the Effective Date. Upon the Effective Date, the Company intends to issue a press release and file a current report on Form 8-K to notify our stockholders and the public at large of the corporate action.

Beginning on the Effective Date, each certificate representing pre-reverse split shares will be deemed for all corporate purposes to evidence ownership of post-reverse split shares. The Company will act as exchange agent for purposes of implementing the exchange of stock certificates. Holders of pre-reverse split shares will be asked to surrender to the Company certificates representing pre-reverse split shares in exchange for certificates representing post-reverse split shares in accordance with the procedures set forth in a letter of transmittal to be provided to each stockholder following the Record Date. No new certificates will be issued to a stockholder until that stockholder has surrendered the stockholder's outstanding certificate(s) together with the properly completed and executed letter of transmittal.

Election to Not Be Governed by Certain Provisions of the Nevada Revised Statutes

The Nevada Revised Statutes (NRS) allow a corporation to elect in its articles of incorporation not to be governed by NRS 78.411 to 78.444, which set forth restrictions regarding combinations with interested stockholders. The Company believes that it will be in the best interest of the shareholders to not restrict the transactions in which the company may engage.
